

# A NEW DIMENSION IN CAMERA CAR FILMING

## THE TESLA ARM CAR

Introducing the Tesla Arm Car - the first custom-built, full electric on-road camera car in Australia.

The Tesla S model comes fitted out with 2 x 7inc Small HD monitors, 7inch Atomos Recording Monitor all powered through a 12volt battery system, with wireless communication between the arm car and hero vehicle.

Furthermore, the secure and reliable StreamU video platform allows for seamless, realtime streaming of footage to anyone, anywhere.

## THE TESLA ARM CAR HAS BEEN CUSTOM ENGINEERED AND CERTIFIED FOR ON-ROAD USE

The Tesla comes fitted with the RADICAL arm combined with the ARRI SRH 360 stabilised head, which are designed to exceed on rough terrain, at high speeds and even on the water.

The RADICAL features 9ft, 12ft and 14ft reach with a 20kg payload capacity, producing enough torque to swing camera packages 360° in less than 6 seconds at continuous high speed. The RADICAL is versatile enough to be packed up and shipped in 6 flight cases to any location.

The ARRI SRH 360 is the updated ARRI SRH-3. The stabilised head can be operated by hand wheel or joystick controllers. Pan and Tilt up to 240 degrees, with the slip ring allowing unlimited rotation of the head.

## THE RADICAL ARM + ARRI STABILISED HEAD

JB Gripping Services can transform your next production with the next generation Motocrane RADICAL remote-control arm and the ARRI SRH 360 stabilised head designed to create expanded dynamic movement for film makers.

The package together can work with a wide range of vehicles from the JB Gripping fleet - custom Tesla S model P85 with ludicrous mode, RAM 1500 Express, Polaris Razor RZ1000 or Polaris Electric ATV.

## A COST EFFECTIVE, LIGHT WEIGHT AND VERSATILE CAR TRACKING SOLUTION
