I am a hard worker with a good aesthetic 'eye', always looking to improve the picture. I'm a quick thinker and have sharp logistical sensibilities to suit any lighting challenges, in both the short and long term. I'm passionate about the art of lighting. I am friendly and courteous on set and work well with producers, production managers, production designers and onset departments. My talent has been honed on countless productions of varying sizes over the past 20+ years.
