# INTERNATIONAL WORK

New Zealand, South Africa, Fiji, France, Egypt, Ireland, UK, Canada and The Philippines.

# **ABOUT**

An interest in painting and visual story telling led me to pursue work in the film industry in 1997, first as a Clapper Loader then as a Focus Puller.

Early in my career, I worked on over twenty feature films including The Matrix, Garage Days, The World's Fastest Indian, over 150 TV commercials, plus numerous short films, documentaries and music videos. I had the privilege of working alongside many of the industries most gifted DP's including Russell Boyd ACS, ASC, Greig Fraser ACS, ASC, Simon Duggan ACS, ASC, Mandy Walker ACS, and many more.

In 2006, I began work as a Camera Operator in London on various short films, TVC's and music videos. In 2010, I graduated with a Diploma in Cinematography from the Australian Film Television and Radio School and have since worked as a Cinematographer on a variety of long form TV dramas, feature films, documentaries and commercials. Most recently I completed work on a short film called 'Soles', and I am currently working on a feature documentary that focuses on an Australian motorsport legend.

In 2023, I completed a Steadicam Master Class with Louis Puli, and have been enjoying work as a Steadicam Operator in addition to, (and as an added benefit for) my work as a Cinematographer.
