

The Catering Dept Crew Catering

Since 2011, The Catering Dept has been dedicated to providing you with a delightful experience by delivering nutritious, sustainable, and seasonal drop-off catering of the utmost quality. We take great pride in our offerings.

For those of you on the move, we have convenient grab-and-go options, individually packed and ready to enjoy. If you prefer a more substantial meal, we also provide a full buffet service. You can choose whether you'd like an attendant to be present or not, depending on your needs during meal breaks.

Rest assured, all of our packaging and utensils are biodegradable and environmentally conscious, aligning with our commitment to the planet. All catering is delivered in our unique temperature-controlled systems, allowing for staggered meal breaks or when you're running behind schedule. Feel free to ask our team more about these, or the ability to borrow hot boxes or equipment across multiple-day shoots.

The Catering Dept Crew Catering

No matter the size of your crew, we can accommodate your requirements, as long as the order meets our minimum of \$150. Your satisfaction is our top priority.
