### OVERVIEW

I have worked in film production for over 20 years. After starting in New York in a commercial production office, I worked in many different roles before connecting with my love of sound in the audio department in 2014. I have worked on projects of every size and scale, in both production and post, and I actively seek out diverse and dynamic production opportunities. Friendly, professional and enthusiastic, I am equally comfortable leading a crew, fitting into a team, or working directly with a client to fulfill a brief.

- Working Rights in Australia and USA
- WWC Certificate
- Fully Insured
- Extensive Gear List
