PRODUCTION MANAGER / COORDINATOR

I have been filming, producing and editing video content, since attending film school in 2006. This has allowed me to master the intricate creative and technical aspects of telling an impactful story through a lense.

In 2014, I was hired by the award winning US global provider of marketing solutions IPG, and relocated to Hong Kong as the Head of Moving Image, Asia-Pacific to oversee 6 video production and motion graphics studios in Asia.

In 2016, I moved into long form film and television.

I am currently working as a Production Manager Trainee on the Australian / Irish co-production Mix Tape.

I aspire to become a Line Producer, and aim to make a meaningful impact on the global stage of film and television.
